

📍 SAINT PETERSBURG

# YOUTH ROBOTIC SCHOOL

OCTOBER  
22, 2025

The Youth Robotic School is aimed at students, postgraduates and young scientists under 35 years old

The expert commission carries out the review and competitive selection of submitted materials of paper abstracts.

The best papers will be recommended by experts for publication in the collection of papers "ER-2025" or in the journal "Robotics and Technical Cybernetics", indexed in the Russian Science Citation Index.

RTC invites students, postgraduates and young scientists to take part in the section "Youth Robotic School" within the frames of the 36th International Scientific and Technological Conference "Extreme Robotics". "Youth Robotic School" (YRS) will become an effective communication platform, providing opportunities for young people to declare themselves, find like-minded people, become part of the scientific community, receive professional assessment from experts and industry leaders.

## PARTICIPATION OPTIONS

 **1 DAY**  
October 22, 2025

**500 RUB**

VAT 20 % included

October 22, YRS  
RTC, 21, Tikhoretsky,  
St. Petersburg

 **3 DAYS**  
October 22-24, 2025

**1 000 RUB**

VAT 20 % included

October 22, YRS  
RTC, 21, Tikhoretsky,  
St. Petersburg  
October 23-24, ER-2025  
Cosmos Saint-Petersburg Pulkovskaya  
Hotel, 1, pl. Pobedy, St. Petersburg

# YOUTH ROBOTIC SCHOOL

OCTOBER  
22, 2025

(tentative)

## SECTION CHEDULE

Presentation time limit 10 min. Discussion 5 min.

9.00 – 10.00	Registration of participants. Inauguration ceremony. Plenary session
11.00 – 12.30	Presentations of participants
12.30 – 13.00	Master-class / presentation of specialists
13.00 – 14.00	Coffee-break
14.00 – 16.30	Presentations of participants
16.30 – 17.30	Master-class/presentation of specialists
17.30 – 18.00	Closing ceremony. Summation
18.30 – 20.00	"Scientific quiz" (by preregistration)

## GOALS

Transfer of the most relevant methodological knowledge and skills to young scientists from experienced colleagues and specialists

Providing young scientists with a platform for a comprehensive discussion of results, identifying further research directions and developing interactions between various research teams

Involvement of promising and talented students, postgraduates, young scientists in the scientific community, implementation of a mentoring program through lectures, seminars and master classes, expansion of opportunities for scientific discussion
